PROFESSIONAL SUMMARY

I am a self-taught JavaScript developer with over five years of experience in frontend development, with a strong focus on Angular and React. I am known for my friendly and creative approach to programming, as well as my commitment to delivering high-quality work.

I am always eager to learn and grow as a developer, and I am passionate about staying up-to-date with the latest trends and technologies. While I may not have all the answers, I am confident in my ability to quickly learn and adapt to new challenges.

In addition to my technical skills, I am a collaborative team player who thrives in an environment where I can work with others to bring projects to life. I believe that my dedication to providing the best possible experience for end-users, coupled with my strong work ethic, make me a valuable asset to any team.

SKILLS

JavaScript, TypeScript, Angular, React, HTML , CSS, SCSS , git, Responsive Design, BootStrap , tailwind, NextJs ,Redux, Jasmine & Karma

WORK EXPERIENCE

Kilid (Tehran,Iran) – *Frontend Developer*

June 2021 – Dec 2022

Kilid is one of the largest companies in the real estate field in Iran.

- At Kilid, I redesigned a service that accurately predicts house prices based on postal codes, reducing the error rate to less than 20%.
- I refactored up to 60% of Kilid's code base, improving the user experience and implementing new SEO and UX best practices that resulted in a 50% increase in views per month.
- At Kilid, I developed a fully dynamic search filter component that greatly improved the user experience and made it easier for users to find the properties they are looking for.

Esafar (Tehran, Iran) – *Frontend Developer*

Aug 2019 – April 2020

Esafar is a Company in the Tourism field, selling Flights and reserving Hotels

- At Esafar, I was part of the team that rebuilt the entire web application from scratch with new designs and features to create a more seamless and user-friendly experience.
- I developed a B2B panel at Esafar that sold flight tickets to other traveling agencies at a lower price, contributing to increased sales and revenue.
- I helped migrate the web application from AngularJS to Angular 8, the latest version at the time, to improve performance and scalability.
- At Esafar, I set up a customer support panel to respond to customers' phone calls, emails, messages, etc., resulting in a 30% increase in sales and improving customer satisfaction.

Citex (Tehran, Iran) – *Frontend Developer*

Jun2018 – Feb 2019

Citex is a company in the CryptoCurrency investment field.

- At Citex, I developed a Cryptocurrency investment platform frontend web application to make crypto investment easier for users.

EDUCATION

Azad University (Tehran North branch), Tehran, Iran – Bachelor (Business Management) 2014 – 2018
